

Moksh Kulshrestha

Chandigarh, India — mokshkulshrestha@gmail.com — LinkedIn — GitHub — Portfolio

SUMMARY

Second-year Computer Science student specializing in **AI and Software Engineering** with strong foundations in **data structures, algorithms, and scalable system design**. Experienced in building **full-stack and AI-powered products** using React, Node/NestJS, and modern AI APIs. Proven ability to deliver impactful software through hackathons, internships, and collaborative agile development. Passionate about solving real-world problems and building high-performance systems.

EDUCATION

Chitkara University

B.E. Computer Science (AI & Software Engineering) — CGPA: 9.05/10

Rajpura, Punjab

Aug 2024 – Aug 2028

- Focused on **Machine Learning, Blockchain, and Data Structures**.
- Strong foundation in **software engineering principles**, system design, and scalable development.

Saras AI Institute

Associate Degree in Artificial Intelligence

Online

Mar 2026 – Present

- Hands-on experience in **Generative AI, RAG, and agentic workflows** using LangChain and real-world AI architectures.
- Worked on **cloud-based ML deployment (AWS, Docker, Serverless)** and **data engineering pipelines** (Databricks, Airflow).
- Built **end-to-end AI applications** including predictive models, real-time data systems, and scalable backend services.

Shemrock School

Higher Secondary (Non-Medical)

Mohali, Punjab

Apr 2021 – Jun 2024

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, TypeScript, SQL, Solidity

Frameworks: React, Next.js, NestJS, Web3.js, Prisma ORM

Cloud: Microsoft Azure

Tools: Git, GitHub, REST APIs, Agile/Scrum, Docker, CI/CD (GitHub Actions)

Core CS: Data Structures & Algorithms, OOP, SDLC, System Design, Debugging

AI/ML: NLP, Generative AI, Speech AI (Deepgram, ElevenLabs)

EXPERIENCE

Unsaidthat

Software Developer Intern

Remote, Part-Time

Jun 2025 – Present

- Collaborated with designers and engineers in an **Agile environment** to translate product requirements into technical features.
- Led development of a **full-stack mentorship platform**, scaling backend systems to support **500+ users**.
- Designed and implemented **RESTful APIs** using NestJS following SDLC best practices, reducing API latency by **25%**.
- Developed responsive **React interfaces** achieving **90+ Lighthouse performance score**.
- Implemented **Docker containerization** and built **CI/CD pipelines using GitHub Actions** for automated frontend builds and deployments.
- Integrated **Razorpay payments** and managed the end-to-end payment workflow achieving **transaction success**.

- Formed and coordinated **internal development teams** within the club to collaborate on AI projects and technical initiatives.
- Participated in multiple **hackathons as part of collaborative teams**, contributing to ideation, development, and presentation of AI-driven solutions.
- Collaborated with core members to **manage and operate the AI club**, supporting planning of technical sessions, project discussions, and community activities.
- Promoted a **collaborative engineering culture** through teamwork, peer learning, and shared development during hackathons and project building.

PROJECTS

Dermora.AI — React, WebSockets, NLP, Generative AI

- * Developed a real-time **AI mental health assistant** integrating speech-to-text, AI reasoning, and conversational UI.
- * Implemented real-time communication using **WebSockets** and integrated AI APIs for intelligent responses.

OpulRent — Solidity, Ethereum, Web3.js

- * Built a **blockchain-based real estate fractional ownership platform**.
- * Designed smart contract architecture enabling tokenized property investment.

AI Interviewer — React, NLP, Full Stack

- * Built an **AI interview simulator used by 100+ students**, generating real-time **NLP-based feedback**.
- * Integrated NLP models to evaluate responses and provide structured improvement suggestions.

Clintell AI — React, AI Agents, Data Visualization

- * Built an **AI-powered pharmaceutical intelligence platform** delivering real-time market insights and strategic decision support.
- * Developed **agentic AI workflows** for signal detection, impact analysis, and automated strategic briefs.
- * Implemented **interactive dashboards and 3D globe visualization** for global pharma data monitoring and competitor tracking.

Saarthii — AI, Full Stack, Smart Governance System

- * Developed an **AI-powered grievance redressal platform** built on top of the **CPGRAMS government portal** to automate complaint handling and improve citizen engagement.
- * Implemented **AI-based verification and duplicate detection**, reducing manual effort and redundant complaints.
- * Built **intelligent routing system** to automatically assign complaints to relevant departments with real-time tracking.
- * **National Finalist** at a **world's largest indoor hackathon**, presented at **Bharat Mandapam**.

HONORS & CERTIFICATIONS

- **1st Place** - GenAI Hackathon, IIT Bhubaneswar (2025) **Odisha's First GenAI Hackathon**
- **Regional Winner** - **HackIndia Spark 7** (Web3 Track) and **National Finalist**
- **National Winner** - CampusLeet Coding Competition by Kalvium
- **Certifications:** Microsoft Certified **AZ-900 (Azure Fundamentals)**, **DP-900 (Azure Data Fundamentals)**, Introduction to Generative AI, Deloitte **Cyber Job Simulation**, Accenture **Developer & Technology Job Simulation**
